2. (Secret - GLC) Met with George Murphy, on the staff of the Joint Committee on Atomic Energy, and provided him with the FBIS book containing a recent speech by Marshal Krylov and I briefed Murphy

I talked with Murphy about our proposed response to Ed Bauser's letter for a security review on the Committee's document having to do with the chronology of the development of the H bomb. Murphy felt that an answer along the lines which we proposed would be satisfactory.

9. (Confidential - JMM) Explained to Larry Conrad, of the staff of the Constitutional Rights Subcommittee of the Senate Judiciary Committee, that we were sending over our final suggestions for a compromise solution to the Ervin bill (S. 782) which were based on the earlier proposals of Senator Ervin. I also explained to Conrad that we had been in touch with the FBI, but they were pushing for a complete exemption and wanted no part of any compromise formula.

10. (Confidential - JMM) [redacted] of NSA, 25X1A  
came by to leave with us copies of two recent letters from Senator Symington to Admiral Gayler asking a number of probing questions about NSA's overseas activities. [redacted] feels this raises serious problems for both NSA and the community generally.

11. (Confidential - JMM) With the Director's approval and following a consultation with the DDP, I met with Senator J.W. Fulbright in response to his inquiry concerning alleged Agency activities in Tibet. (See Memo for the Record.)

During a leisurely discussion the Senator spoke highly of the Agency and the Director and asked to be advised if we encountered any political difficulties as a result of maintaining our objectivity and independence on certain controversial questions of the day. He said he was ready to support us if we should ever need him.

I took advantage of the occasion to brief the Senator and, at his request, Carl Marcy, on the staff of the Senate Foreign Relations Committee, 25X1A  
on the Green Beret case.
